## TECHNICAL PRODUCT MANAGER

Collaborative Technical Product Manager with 5+ years of experience leading cross-functional teams to deliver AI, automation, and data-driven solutions in education, healthcare, and finance. Skilled at managing multiple concurrent projects in agile environments, coordinating distributed teams, and ensuring on-time, high-quality delivery. Proficient in stakeholder management, KPI tracking, and end-to-end product lifecycle oversight, with working knowledge of AI tools (OpenAI, Hugging Face), automation platforms (Zapier, Make.com), and cloud environments (Azure, GCP). Aligned technical execution with client objectives that drove enrollment by 60%, reduced project timelines by 18%, streamlined onboarding, and increased monthly revenue by ₦30M

---

## SKILLS

**Project & Product Management:** Agile/Scrum, Kanban, Sprint Planning, Stakeholder Management, Requirements Gathering, Roadmapping, Risk Management, KPI Tracking, Team Coordination, Remote Team Management, Milestone Tracking, ClickUp, Trello, Jira, Git/GitHub, Asana, Slack, Microsoft Teams, Google Workspace, Documentation & SOP Development

**Automation & Integration:** Zapier, Make (Integromat), Pabbly, n8n, API Gateway, REST APIs, Webhooks, Low-Code/No-Code Development, Workflow Optimization

**Data & Analytics:** SQL (PostgreSQL, MySQL, Microsoft SQL), Spreadsheets (Excel, Google Sheets, Zoho Sheets), Dashboards (Power BI, Tableau, Looker Studio), Data Visualization, KPI Monitoring

**Programming & AI/ML:** Python (NumPy, Pandas, Matplotlib, Seaborn, Plotly, Scikit-learn, TensorFlow, PyTorch), Prompt Engineering, LLMs (OpenAI, Hugging Face), A/B Testing, Data Modelling, Exploratory Data Analysis, Data Storytelling, Predictive Modeling, Machine Learning Deployment, Statistics, Probability

## PROFESSIONAL EXPERIENCE

**GradrAI - Remote**

**April 2024 - Present**

### AI Product & Technical Project Manager

- Oversaw end-to-end development of an AI-powered education analytics platform, managing a cross-functional team of 15 (developers, data scientists, designers, QA testers, and researchers).
- Curated KPI dashboards in Power BI to monitor AI grading accuracy and learner engagement, reducing grading errors by 70% and increasing learner engagement by 30%.
- Scoped, prioritized, and tracked project tasks using Agile methodology, achieving 100% on-time delivery of all sprints and milestones.
- Collaborated with AI engineers to refine AI models, improving algorithm accuracy and scalability for high-volume grading workloads allowing up to 200 scripts at a time cutting marking time by 90%.
- Authored internal SOPs and product documentation, streamlining onboarding and reducing knowledge transfer time by 50%.

**Webfala Digital Skills for All - Kwara**

**May 2025 - September 2025**

### AI Engineering Lead & Associate Program Lead

- Designed and delivered a 6-month funded AI fellowship for 20 women in underserved regions, achieving 90% program completion and 60% post-program AI solution deployment.
- Managed 5 team to design end to end AI enabled products in healthcare, education and agriculture increasing local adoption.
- Led workflow automation training sessions (using tools like Make, Zapier, and Python scripting) to equip fellows with skills to automate repetitive processes while safeguarding data privacy and security compliance.
- Coordinated with funding partners and internal stakeholders to ensure alignment on deliverables, budget tracking, and reporting, securing renewal discussions for next cohort funding.

- Partnered with local tech hubs, universities, secondary schools, and AI communities, expanding reach and strengthening grassroots adoption of AI solutions to over 1000 attendees.
- Facilitated cross-project collaboration between fellows, enabling the development of 5 AI-driven community initiatives in education, maternal healthcare, agriculture and business process automation.

**Darlytics (Subsidiary of Utiva) - Hybrid (Lagos)**

**September 2024 - April 2025**

**Technical & Data Product Manager**

- Oversaw 7+ concurrent client data projects managing 30+ team members across 4 time zones, ensuring all deliveries were on-time, within scope, and met quality standards of enterprise clients.
- Increased adoption of analytics solutions by 30% via collaborating with product, design, security, business, sales, and development managers to align strategy and execution.
- Reduced delivery cycles by 55% by implementing Agile sprints, sprint planning, and retrospectives, improving distributed team productivity.
- Achieved 95% client satisfaction upon delivering 5 predictive models and 7 interactive dashboards including KPI tracking, regular progress reports, and tailored communication.

**Afripay - Remote**

**February 2023 - September 2024**

**Technical Product Manager**

- Spearheaded product strategy and delivery for payment platform, edufintech product and sport talent scouting medium, serving users across 20 African countries despite regulatory, currency, and infrastructure barriers.
- Coordinated distributed teams across 4 time zones (developers, designers, data analysts, and cybersecurity specialists), achieving 100% milestone delivery for four major product rollouts.
- Led integration of cross-border payment APIs and compliance checks, reducing failed transactions by 35% and ensuring adherence to multi-country financial regulations.
- Built real-time KPI dashboards in Power BI to track transaction success rates, customer acquisition, and revenue growth enabling data-driven decisions that improved payment routing efficiency by 25%.
- Facilitated partnership alignment with local banks, edtech providers, and government education bodies to expand product adoption into underserved educational markets.
- Implemented Agile workflows, sprint retrospectives, and backlog prioritization, reducing average feature delivery time from 6 weeks to 4 weeks.
- Directed user onboarding research that informed a simplified KYC process, increasing cross-country user activation by 40%.

---

**PROJECTS**

**GradrAI (Education Analytics):** Designed automated student grading and feedback platform to improve accuracy and learner engagement.

**MedHub (Health Data Intelligence):** Built Automated Excel-based tracking pipelines for symptom and drug adherence, increasing clinic compliance by 40%.

**SnapBooks (SME Financial Analytics):** Analyzed and Automated SME record keeping and reporting to uncover ₦30M in overlooked income and improve budgeting by 15%.
